Rapid Tox Cup II

Most Economical Means of Testing

The Rapid Tox Cup II is a cost effective collection and testing cup, allowing you to stretch your drug testing budget.

Convenient Integrated Cup Design

The Rapid Tox Cup II minimizes contact with the urine by placing the drug detection strips inside the specimen container. Urine comes into contact with the strips and results are easy to read through the clear cup.

Easy to Read Results in Minutes

A valid test result produces a control line at the top of each strip to show that the test reagents are working correctly. Negative results may be interpreted once the control lines have formed and the background has cleared. The absence of a line at a drug indicator is read as a presumptive positive result. Read positive results in 5 minutes. **Results are stable for up to 4 hours.**

Female-Friendly Collection Container

Unlike other test kits that minimize cost by shrinking the container size, the Rapid Tox Cup II has a wider design, which makes voiding easier and more sanitary particularly for female test subjects.

Detects Up to 14 Drugs of Abuse

The Rapid Tox Cup II offers configurations that can test for a single drug or up to 14 drugs with a single test, so you can stretch your budgets. Multiple or single drug testing configurations provide you greater flexibility in your testing program.

SPECIFICATIONS

Test Medium: Urine

Format: Integrated Cup with Temperature Strip

Cut-off levels:

AMP (amphetamine)	1000 ng/ml
BAR (barbiturates)	300 ng/ml
BZO (benzodiazepines)	300 ng/ml
COC (cocaine)	300 ng/ml
MDMA (Ecstasy)	500 ng/ml
THC (marijuana)	50 ng/ml
MTD (methadone)	300 ng/ml
mAMP (methamphetamine)	1000 ng/ml
OPI (opiates)	300 ng/ml
OXY (oxycodone)	100 ng/ml
PCP (phencyclidine)	25 ng/ml
TCA (nortriptyline)	10 ng/ml

EASE OF USE

Step 1

Check temperature range for possible adulteration.

Step 2

Read drug test results at five minutes.

RAPID TOX CUP II

Item	Description	I - 24	Box of 25 Tests
8RT42	THC/coc/opi/mAMP	\$5.55	\$118.75 (4.75 ea)
