Alco-Sensor VXL

Generic
Version

One-handed Operation

The one-handed design also allows right hand and left operation for ultimate flexibility. The operator navigates the test menus by pressing the two buttons on the back and a single button on the front of the instrument.

Passive Test Mode

The passive test mode allows the operator to test for the presence of alcohol without using a mouthpiece. A subject blows at the sampling cup mounted in place of a mouthpiece, and the instrument displays a "positive" or "negative" result. Because the subject's mouth does not touch the sampling cup, the same sampling cup can be used repeatedly. Testing in the passive mode enables the operator to test many subjects very quickly for the presence of alcohol.

Stores Thousands of Test Results

Robust memory features of the Alco-Sensor VXL allow the instrument to store thousands of test results. The operator can browse the test results stored in the instrument and re-print selected tests. The optional Accelerator software program facilitates uploading of test results to a computer to create a database and reports of test results.

Wireless Testing, Secure Printing

To print test results the operator places the Alco-Sensor VXL in a printer dock that is connected by cable to a printer. This method allows the operator to test subjects without being tethered to a printer while testing the subject, yet produces a secure connection to the printer when printing.

RELATED ITEMS AND SUPPLIES

Item	Description	Price
380	Mouthpiece for Alco-Sensor VXL	\$.26 @ 1-499
		\$.25 @ 500-999
		\$.24 @ 1,000-4,999
		\$.22 @ 5,000-9,999
		\$.19 @ 10,000+
381	Sampling Cups for Alco-Sensor VXL	\$.50 ea
324	Alcohol Gas Tank, 105 liter	\$170.00
328	Regulator	\$109.00
368	Accelerator Software	\$395.00

ALCO-SENSOR IV w/MEMORY DOT VERSION

Item	Description	Price
208	Alco-Sensor VXL Includes Alco-Sensor VXL, carrying case, 25 mouthpieces, drink sniffer, manual.	\$845.00
208-BAR	Alco-Sensor VXL with Barometer Includes Alco-Sensor VXL, carrying case, 25 mouthpieces, drink sniffer, manual.	\$930.00
224	Alco-Sensor VXL with DP1012 Printer Includes: Alco-Sensor VXL, DP1012 printer, printer dock, carrying case, 100 mouthpieces, drink sniffer, printer paper, charger, and manual.	\$1,495.00

SPECIFICATIONS

Sensor type: Electrochemical Oxidation (fuel cell)

Range of measurement: .000 - .400 BrAC

Accuracy and precision: U.S. DOT approved for evidential use

Breath sampling: Automatic with manual override

Response time: 3-5 seconds negative results,
5-10 seconds positive results

Power requirement: 4 AAA batteries (included)

Test mode: Direct and passive

Calibration: Microprocessor controlled, using gas or wet bath simulator

Memory: Thousands of tests

Print capability: Yes, with DP1012 printer or Slip printer

Computer capability: Yes, with docking station and serial printer.

Temperature range: 0 – 50°C

Size: 7 1/2" x 3 1/4" x 2 1/8", 12 oz.

Warranty: One year parts and labor
