ALCOHOL TESTING INSTRUMENTS

Alco-Sensor IV with Memory

Generic
Version

Evidential Accuracy for Law Enforcement

The Alco-Sensor IV with Memory is approved by the U.S. Department of Transportation as an evidential breath testing devices. The Alco-Sensor IV with Memory is widely used by law enforcement agencies as a PBT (Preliminary Breath Tester). Accuracy exceeds +/- .005 at .100 BrAC.

Print Results

The Alco-Sensor IV with Memory connects to the DP1012 portable printer or the Slip printer to provide an economical and convenient alcohol testing system. The battery powered DP1012 printer offers the advantages of total portability for testing in any location. Each test record includes Alco-Sensor IV serial number, test number, date and time of test. The printout also includes a line for the operator's signature to document chain of custody of test results.

Computer Capable

Law enforcement and corrections agencies use the optional Total Recall software to facilitate uploading test results to a computer. The Total Recall software generates customized reports from a database of test results.
